DIRECTORS' REPORT

The Directors of the Company present herewith the financial results of the company for the first quarter ended September 30, 2011.

OVERVIEW

A comparison of the key financial results and operational performance of the Company for the quarter ended September 30, 2011 with last period is as under.

Financial Results:

Particulars	Quarter ended	
	September 30, 2011	September 30, 2010
	(Rupees in thousand)	
Sales -net	514,403	450,030
Gross Profit / (loss)	2,731	(22,053)
(Loss) before taxation	(143,242)	(228,346)
Taxation	(30,144)	16,396
(Loss)/Profit after taxation	(173,386)	(211,950)
Loss per share-Rupees	(0.47)	(0.58)

During the quarter ended September 30, 2011 capacity utilization of the Company stood at 42% as against 44% for the same period of last year. Further, sales volume slightly decreased to 101,946 M.T from 102,622 M.T for the same period of last year, however overall turnover increased due to increase in retention prices. The lower production resulted due to availability of carry over stock and the reduced demand for cement due to recent floods in the Sindh province.

Operational performance:

During the period under review your Company has produced 95,410 M.T and 104,072 M.T of Clinker and Cement as compared to 98,835 M.T and 105,131 M.T of the same period of last year showing slight decrease of 3,425 M.T and 1,059 in the production of clinker and cement respectively. Further, your Company has captured local market and increased the ratio of local Vs export to 81%:19% during the current quarter ended from 24%:76% during the previous period of last year ended.

FUTURE OUTLOOK

The current business environment is extremely challenging for the Cement industry in general and for the Company in particular. Higher input costs including constant increase in coal prices in international markets, significant increase in electricity tariff, packing materials, freight charges and others are major challenges have posed a direct threat to the margins of the Company. The threat has been further aggravated as most of the time Company is unable to pass on the impact of these higher costs to end users because of fragile market conditions. However, the Company through an effective sales mix is making every effort to maximize its sales revenue and mitigate this risk factor to a maximum extent. With local prices being relatively better, the Company, in future, will concentrate more on local market and would restrict its export volume wherever possible. Your management is striving to meet the challenges and address business risks through effective and workable strategies.

ACKNOWLEDGEMENT

We would like to thank all financial institutions having business relationship with us, our dealers and customers for their continued support, cooperation and trust they have reposed in us. We would also like to share our deepest appreciation for all of our staff for their dedication, loyalty and hard work.

For and on behalf of the Board

Syed Ajaz Ahmed
Chairman
