FUTURE PROSPECT

The demand of cement in local as well as in neighboring countries and in Africa is rising continuously. The high prices of freight due to increase in fuel price has given an added advantage to our country and your Company as well for exporting the cement to these countries due to its proximity . The Management of your Company has already obtained BIS - Certification and has been trying to capture export orders as one of the steps towards achieving maximum advantage under present scenario of high demand.

Pakistan economy is continuously showing upward growth and the construction activity is one of the main driving forces behind overall growth of the economy. It is anticipated that the cement industry would continue to grow faster than the rate at which economy is growing. The Government has already earmarked huge amount for infrastructural projects of mega sizes though presently suspended till the end of current financial year but there is every possibility that these projects would continue till completion. The private investors both locals and foreigners have already undertaken and are showing growing interest for further investment in construction of huge residential and commercial projects

There is also growing demand for cement in nearby countries including India, GCC countries and African countries which has created additional export potentialities for our industry. The Indian Government has recently banned the export of Cement to cater its local demand. This would have positive effect on Pakistan's export to Middle East countries due to construction boom prevailing there.

All these positive factors are likely to increase the demand of cement locally and abroad and will have very significant and pleasant impact on growth of the cement industry as a whole. Your Company would not lag behind and is determined to have its due share from the overall economic growth of the cement industry.

ACKNOWLEDGMENT

The Board of Directors of the Company would like to place on record its appreciation to the financial institutions, customers, dealers, suppliers, workers, staff and officers of the Company for their hard work in improving the performance and financial results and hope that the same spirit will continue in future as well.

For and on behalf of the Board
